

Do you want to make a difference to your community?

If the answer is yes, have you ever considered standing as a councillor? Over the coming years, a number of changes are likely to occur that will impact on the way that society operates. As a councillor you can become a voice for your community and affect real change.

If you would like to find out more about becoming a District or Parish councillor then why not come along to our Prospective Councillor event this month. The event will give you the opportunity to meet current councillors, discover what being a councillor involves and how to put yourself forward as a candidate.
